Automation Technologies

sepam

INNOVATIVE CHANGE SOLUTIONS

Case history

Big refrigeration plants
Cold chain
HVAC safety systems
High pressure & vacuum heat treatments
Textile industry
Steel wire plants
Wooden machinery
Food industry
Building automation
Plastic industry
Chemical & masterbatches
Glass industry
Aluminium extrusion, recycling & refining
Aerospace composite materials
Steel industrial furnace
Smoke and heat evacuation systems

Social

Financing
No-profit activities

Education

School-work process
Constant know-how from the Academic World

Offer

Complete automation systems
Scalable solutions
Reverse engineering
Plants requalification
Process control
Production tracking
Analysis of process data
Decision making support
Energy efficiency
Integration with quality system
Warehouse & laboratory efficiency
MES systems
Integration with ERP systems

Advanced Solutions

Data analysis and reporting
CRM and Marketing support
Customer Care solutions
Maintenance activities
Data Integration
Remote assistance and VPNs
Safety on board instructions
